SUMMARY

Analytics-driven business and product strategist with 8+ years of experience solving complex business challenges through large-scale end-to-end data analysis, statistical modeling, and strategic recommendations. Skilled in SQL, Python, Power BI, Tableau, and predictive modeling, with a track record of translating insights into executive-level recommendations that drive measurable business results.

PROFESSIONAL EXPERIENCE

CAPITAL CITY BANK – A 60-branch community bank

Florida, USA

Product Strategy Analyst

01/2025 – Present

- Framed the business problem and built the analytical business case for Zelle for Business by **analyzing 40M+ online banking records** with SQL, Python, and Power BI to test hypotheses on customer demand and prioritize target segments; monitored beta results showing **an 8.5% increase in digital engagement and 10% growth in monthly peer-to-peer (P2P) transactions**.
- Performed segmentation analysis to inform behavioral targeting for a credit card cross-sell strategy across in-app messaging and banners on Q2 SmartMessages, driving a **6% click-through rate** and **17% card approval rate**.
- Designed a test-and-control measurement strategy for a HELOC lending product onboarding campaign in Marquis CRM. Achieved **25% HELOC adoption vs. 5% among control customers**, contributing **22 new accounts and \$1.2M in balances**.
- Identified **\$2M in potential Private Banking relationships** through cohort analysis of home-loan customers, applying statistical segmentation to translate behavioral insights into prioritized leads and cross-sell strategy recommendations for Private Banking.
- Served as the bank's SME on online banking performance and built its **1st online banking dashboard** end to end – integrating multi-source data into Microsoft Fabric and designing a reusable gold-layer data schema – developing a monitoring plan and Power BI KPIs that the VP of Digital Channel and Head of Marketing used to guide rollout strategy and **lift feature activation by 5%**.
