SUMMARY

Data-driven product strategy professional with 8+ years of experience in driving product development, customer acquisition, segmentation, and pricing strategy across financial services, consumer goods, and B2B technology. Skilled at solving complex business problems and influencing cross-functional stakeholders and leadership through data-driven recommendations. Microsoft-certified data analyst fluent in SQL, Power BI, Tableau, Python, generative AI tools (Copilot/Claude), and predictive models (k-means clustering, neural networks).

PROFESSIONAL EXPERIENCE

CAPITAL CITY BANK – A 60-branch community bank

Florida, USA

Product Strategy Analyst

01/2025 – Present

- Drove an **8.5% lift in digital engagement** and **10% monthly peer-to-peer transactions** by segmenting 40M+ banking records (SQL, Python, k-means clustering) to inform the launch of Zelle for Business, ClickSwitch, and WealthAccess.
- Improved **activation 5%** and **reduced 3-month login churn 2%** by building the bank's first online banking performance dashboard in Power BI – leveraging Copilot to accelerate DAX formula development and enable natural-language search for business audiences – establishing the KPIs which senior leadership uses to evaluate business cases and set strategies.
- Identified **\$2M** in new **private banking opportunities** by analyzing home loan customer cohorts, translating customer behaviors into Wealth Management and Private Banking cross-sell strategies and prioritized lead segments for sales activation.
- Diagnosed customer churn drivers across **10M+** transaction and card-swipe records, developing targeted customer retention strategies that contributed to **\$1M in incremental deposit revenue**, and improved customer loyalty.

MATTEL – The world's second-largest toy manufacturer

Wisconsin, USA

MBA Intern, Product Strategy – American Girl (\$200M premium, high-end doll brand)

05/2023 – 08/2023

- Built a pricing optimization strategy projected to generate **\$14M in incremental revenue** from **30K unit sales** by analyzing 2+M sales data (SQL, Tableau) to benchmark competitor pricing, market trends, and consumer price sensitivity. Aligned stakeholders across Product Management, Design, Forecasting, Finance, Insights, and Merchandising on the recommendation.
- Designed a resale strategy to generate **\$800K in incremental revenue** by examining competitive and consumer data and conducting a netnography study to predict consumers' demand and preferences.

SUNBYTES – A fast-growing B2B tech startup

Ho Chi Minh, Vietnam

Growth Marketing Specialist

08/2021 – 07/2022

- Led the strategy and launch of a new HR solution service targeting technology leaders and startup owners – owned value proposition, pricing, and channel strategy, and generated **500+ marketing-qualified leads, 5 initial customers, and \$1M in revenue**.
- Reframed the business model using firmographic segmentation, cluster analysis, conjoint analysis, competitive research, and interviews with five prospects, **increasing revenue 24% and profit 41%**.
- Led a 7-member cross-functional team to redesign the digital customer journey – writing user stories and requirements, partnering with engineering, UX/UI designer, content marketing – leveraging funnel analytics across 100K+ data points to identify and address friction points, **reducing bounce rate 40%, and growing web traffic 300%**.

SPS GLOBAL – Top 100 global business process outsourcing company

Ho Chi Minh, Vietnam

Product Marketing Team Leader

08/2018 – 03/2021

- Developed the product positioning, sales enablement, and customer-facing materials across a **\$10M service portfolio**, supporting **\$5M in pipeline opportunities** on Salesforce. **Honored with Best Employee of the Year**.
- Shaped a sustainability strategy by analyzing 300K+ operational data and **leading an 8-member cross-functional team** to deliver **\$200K in annual cost savings** and contributed to the company receiving Top 10 Sustainable Business recognition in Vietnam.
